Anti-Bullying Policy for Strood Academy

Introduction

Strood Academy is committed to creating a safe and inclusive learning environment for all students. Bullying is unacceptable behaviour that will not be tolerated. This policy outlines the definition of bullying, the different forms it can take, the reporting procedures, and the consequences for those involved in bullying.

What is Bullying?

Bullying is repeated, unreasonable behaviour directed towards an individual or group that causes distress, humiliation, or fear. It can be physical, verbal, social, or cyberbullying.

- **Physical bullying** involves hurting someone physically or damaging their belongings.
- **Verbal bullying** includes name-calling, teasing, insults, and threats.
- **Social bullying** involves excluding someone from a group or activity, spreading rumours, or damaging someone's reputation.
- **Cyberbullying** is bullying that takes place online or through electronic devices. This can include sending mean text messages, posting embarrassing pictures or videos online, or excluding someone from online groups.

Bullying can be emotional, physical and mental. It can include the inappropriate and harmful behaviours expressed via digital devices (cyber bullying) such as the sending of inappropriate messages by phone, text, Instant Messenger, through web-sites and social networking sites, and sending offensive or degrading images by phone or via the internet.

Smoothwall: At Strood Academy we use smoothwall, this programme scans the content and context of information typed into students' chromebooks, it identifies unwanted material and has filtering categories which can be used to tailor the web browsing experience for students in the academy, protecting them from harmful content. Smoothwall Monitor is a digital monitoring system that flags incidents as they happen by real-time monitoring of both keystroke and screen view activity by users. Safeguarding staff are informed, through their preferred means, when users try to view or type harmful content. This is an additional layer that the Academy uses to keep students safe in school and from harmful online content. Those who willfully use their chromebooks to be harmful to others will be sanctioned appropriately.
